A Career in High Demand

In 2005, an estimated 22.2 million people aged 12 or older suffered from substance dependence or abuse. Yet, only approximately 10 percent of these people received treatment at a specialty addiction treatment facility (SAMHSA).

The good news is that addiction is treatable, and you can help. Addictions professionals not only provide hope to individuals and families—they save lives.

Consider an addictions career today. Visit www.addictioncareers.org to learn more.
