

Screening and Brief Intervention Training For Trauma Care Providers

Announcing a One-Day SBI Training Session!

March 3rd, 2010

**Metropolitan Chicago Healthcare Council
Conference Center
222 South Riverside Plaza, Suite 1900,
Chicago, Illinois 60606**

Please note: There will be no postponements. All training dates are final.

Sponsors:

The Substance Abuse and Mental Health Services Administration (SAMHSA)
in partnership with
The National Highway Traffic Safety Administration (NHTSA)

The American College of Surgeons' Committee on Trauma (ACS-COT) requires that Level I and Level II trauma centers have a mechanism to identify problem drinkers. In addition, Level I centers must have the capability to provide brief interventions for screen-positive.

Watch for other training locations at <http://sbirt.samhsa.gov/trauma.htm>

Who Should Attend

Trauma surgeons, trauma nurses, trauma care providers, and trauma center administrators responsible for the implementation of SBI in their trauma center. (2 people per trauma center recommended)

What Participants Will Learn

- What is SBI?
- What are the key components of SBI?
- What screening tools are most effective?
- How to conduct a brief intervention?
- How to implement SBI in trauma centers?
- Establishing and charging for SBIRT under new CMS Regulations.

Registration

There is no registration fee, however training slots are limited and made available on a first come first serve basis.

To register, go to http://dsibmeetings.westat.com/listserv/reg/public_meetinglist.asp

There are no funds available to support travel, lodging and expenses associated with the training.

For other general SBIRT information, please go to <http://sbirt.samhsa.gov/>

Continuing Medical Education (CME) credits may be available!
